Kansas Chapter American Academy of Pediatrics Legislative Update

Overview

Education funding issues were addressed in the last week of the regular session. The Governor has signed the school finance plan and the briefing of the Court is scheduled for April 15th. A number of issues including the budget and tax policy remain outstanding for additional attention when the wrap up session begins in May. A wide variety of health care issues have been resolved by the conclusion of the regular session. A few may still see action during the wrap up session.

Big Picture Issues

The final week of the regular Session concluded Friday April 5 and the Legislature adjourned for three weeks to return on Wednesday, May 1st, for the wrap up or Veto Session.

Conference committees hammering out differences in legislation and bundling bills together filled the majority of the week. The spotlight was on the Education finance conference committee that met throughout the week to debate school funding and policy. After a series of tense meetings, the House and Senate members came to an agreement late Wednesday evening. Ultimately, the House accepted the Senate's funding proposal, which is the plan the Senate passed in March, and is also the plan Governor Kelly supports. In short, the education policy agreed to seek to address the state Supreme Court's adequacy concerns by adding \$90 million in school funding for the next four years. The chair of the K-12 Education Budget committee agreed to accept the plan, but still held that the funding in Senate Bill 16 was "fiscally irresponsible." On Thursday afternoon the House voted 76-47 to adopt the conference committee report and a few hours later the Senate voted 31-8. The bill was sent to the Governor and she signed it on April 6.

Other conference committees such as health and judiciary found common ground on several issues. The health conference committee bundled bills including the corporate practice of medicine and easing some social worker licensure requirements. The insurance conference committee is advancing the Farm Bureau health care product to the Governor. One significant item that remains unresolved is the overall state Budget, which includes funding for state agencies for 2019 through 2021. On May 4th the Budget Conference Committee decided against adopting a committee report and will instead resolve their disagreements over the budget during the veto session. This move leaves all the state spending on the table and up for negotiations at the end of the session.

Health Issues

The health-related bills were addressed in several conference committees and in bills during the last weeks of the session. There may still be some action on legislation during wrap up.

Bills Sent to the Governor

Farm Bureau and association health plan bills. Conference Committee report on HB 2099.

- Passed Senate 28-12 and House 84-39 and awaiting Governor's action.
- Includes:
- SB 32: Farm Bureau non-insurance healthcare benefits. None insurance bill that exempts Farm Bureau plan from Insurance Department regulatory authority and allows for non-ACA compliant health product (not insurance) that to not cover essential benefits.
- Other components of association health plan bills including:
 - Remove a membership limitation placed on AHPs that requires the association have at least 25 members, employees, or employees of members to be offered group accident and health insurance coverage.
 - Statement of purpose and intent for small employer health plans including to prevent abusive rating practices, to require disclosure of rating practices to purchasers, to establish rules regarding renewability of coverage, to establish limitations on the use of pre-existing condition exclusions, to provide for development of 'basic' and 'standard' health benefit plans to be offered to all small employers,
 - Alters definitions of association health plans and small employer health plans

Family First Prevention Services Act –HB 2103 and funding in the House and Senate budget bills.

- There are two parts to this public policy issue: one is funding that is proceeding through the budget process and the passage of the bill (HB 2103) to make the funding possible.
- 50/50 matched federal funds to divert children from child welfare by treating parents with SUD, mental health, and parental skills training.
- House passed 120-2 and Senate passed 39-0.
- Awaiting action by the Governor.

Other healthcare bills: Conference Committee Report on HB 2119.

- Passed House 117-3 and passed Senate 38-0.
- Awaiting action by the Governor.
- HB 2402: Corporate practice of medicine.
 - Seeking authority for Cerner, BCBS of Kansas City and other insurers, as well as qualified association insurance plans to hire physicians and chiropractors.

- Kansas Medical Society and allied health professions, with the Board of Healing Arts, and the bill proponents (mainly Cerner and BCBS of KC) negotiate a process to grant certification to the proponents business if they agree to adhere to same regulations as healthcare providers and the bill is limited to the two professions (physicians and chiropractors).
- HB 2082: Allowing pharmacist to administer injections pursuant to prescription unless specifically prohibited.
 - House Health Committee heard the bill that would allow pharmacist to aid and inject individuals who are otherwise allowed to self-inject.

Conference Committee Report on SB 78.

- Passed House 100-23 and passed Senate 36-1.
- Awaiting action by the Governor.
 - Includes SB 150 contents including prohibiting certain actions being taken against a tenant, lessee, or applicant for a lease because such person has been or is in imminent danger of becoming a victim of domestic violence, sexual assault, human trafficking, or stalking including denial, evicting, liability if vacating for protection.

Bills Still Alive

Conference Committee Report on SB 18.

- Passed House 123-0 and awaiting action in Senate.
- Awaiting action by the Governor.
- Includes HB 2279 providing protections for domestic violence victims including local law enforcement training, implementation policies when arrest made in domestic violence situation include for violation of protective order, including information regarding releases including the Kansas Victim Information and Notification Everyday.

HB 2066 (New version): Medicaid expansion.

- House moderate Republicans and Democrats worked together during floor debate to remove the contents of the APRN bill from HB 2066 and add the contents of HB 2102 that would implement full Medicaid expansion.
- The coalition had to vote together to override the opposition of leadership, hold off most committee amendments, and finally advance the bill to the Senate.
- Several amendments will cause issues including a monthly member payment and lifetime ban for non-payment, abortion provisions, and termination of the program if federal funding ratio drops below 90 percent.
- Passed House 69-54 on 3/21. Bill awaiting action in the Senate.
- On the last day of the regular session, April 5, Senator Anthony Hensley made a motion on the floor that when the Senate returns on May 1 they must vote on a

motion to bring HB 2066 to the Senate floor and place it on general orders. That requires 24 affirmative votes. In order to force debate on the bill, that motion must receive 28 votes. While it is possible 24 affirmative votes may be possible, it is unlikely there are 28 votes to force debate in the Senate.

- At the very least Medicaid expansion will remain an active issue for political maneuvering during the veto session.
- HB 2244: Authorizing the use of cannabidiol treatment preparation to treat certain medical conditions.
 - Authorized use of cannabidiol with 5% THC to treat certain medical conditions; protection from prosecution.
 - House Judiciary heard HB 2244 allowing medical CBD oil, passed bill to House.
 - House passed 89-35, awaiting action in Senate.
 - Awaiting action in conference committee.
- HB 2326—that implemented reciprocity on valid permits for concealed carry between Kansas and other states.
 - House Federal and State Affairs Committee advanced bill to House floor.
 - House amended the bill to allow concealed carry in Kansas at 18 (down from current 21) and passed 83-41.
 - Awaiting action in conference committee.
