

SOCIAL MEDIA MESSAGING

Your child's regular doctor's appointment is important even during #COVID19. Contact us to discuss well child visit options & learn about the precautions we're taking to keep your family safe. #CallYourPediatrician

Your pediatrician is available to see your child whether by phone, video, or in person. Don't delay needed care. #CallYourPediatrician

Your pediatrician cares about your family's health and safety. Contact us to talk about the immunizations your child needs to stay healthy. #CallYourPediatrician #VaccinesWork

Social distancing can be especially hard for teens and some teenagers are facing big letdowns as important milestone events like graduations and proms are being canceled. It's important to know that your teen CAN feel better, and your pediatrician can help. #CallYourPediatrician

Many parents are just not calling because they think we are busy – but we are not too busy to take care of children. We are still here to take care of children, and we know we cannot put your child's health on pause during COVID19. #CallYourPediatrician

Is your child due for a Well Check Visit or Immunizations? Pediatricians are working hard to make sure they can care for your child, while still keeping everyone safe. #CallYourPediatrician #VaccinesWork

Stay up to date with your child's well visits and vaccinations during #COVID19! Delaying or missing vaccines could put your child, your family and your community at risk for serious diseases, like measles and pertussis. #VaccinesWork

Vaccinating babies and children on time is the best way to protect them from vaccine preventable diseases. Talk with your doctor today to see how they're making clinics safe during #CallYourPediatrician #COVID19.
